

Framework[™] Stud Wall

Builders and architects expect speed, precision and architectural flexibility — all at once. When you're facing tight schedules, labor challenges and complex façade demands, Framework delivers a smarter way forward. Factory-engineered components arrive ready to install, helping teams move faster with less waste and more confidence in the finished result.

More than a stud system, Framework is an integrated part of the Varco Pruden building process. It supports cleaner jobsites, stronger coordination and the freedom to deliver high-finish exteriors without sacrificing efficiency. The result is a wall solution that helps teams win more work, stay aligned through construction and deliver lasting value owners can trust.

Let's build.

Key Benefits

- **Faster Installation**
Factory-prepared components reduce field labor.
- **Cleaner Jobsites**
Exact-fit production eliminates cutting waste and clutter.
- **Better Coordination**
Integrated workflow through VP Command simplifies execution.
- **Confidence in Quality**
Part-marked precision supports consistent alignment and finish.
- **Design Flexibility**
The system supports a wide range of exterior facades.

Product Features

- 01 **6" deep, non-load-bearing metal stud wall system** engineered for architectural flexibility.
- 02 **Factory pre-cut, pre-punched and swaged components** arrive ready to install.
- 03 **Available in 16, 18, 20 and 22-gauge galvanized steel** built for durability.
- 04 **Maximum member length up to 30'** supports efficient wall spans.
- 05 **Bundled shipments by panel section** includes all clips and fasteners for sequencing.

Specifications

Structural Type

Stud Wall

Structural Role

Transfers wall loads to the structure as a non-load-bearing curtain wall

Member Types

Cold-formed C-section stud, pre-cut, pre-punched, dimpled, part-marked

Standard Size

6" depth, 1 $\frac{5}{8}$ " flange width, Up to 30' long

Standard Material & Finish

16, 18, 20 or 22-gauge, G60 cold-formed steel

Integration

Provides structural integration allowing limitless finish options

Warranty

Standard Varco Pruden warranty

Framework™ Stud Wall
