

ImpressaClad™ Wall Panel

When project design requirements demand more than a standard metal façade, ImpressaClad delivers. Offering a durable, low-maintenance exterior, this wall panel solution delivers a refined architectural look with the strength of steel. Its embossed texture creates the visual depth of masonry or stucco while enabling faster, safer installation.

Lightweight panels, concealed fasteners and factory-applied Kynar® finishes help teams reduce upkeep, stay compliant and deliver buildings that look sophisticated for decades. ImpressaClad wall panels provide lasting value owners can trust.

Key Benefits

- **Sophisticated Architectural Appearance**
Embossed steel texture delivers high-end visual depth.
- **Simplified Code Compliance**
This system meets ordinances restricting smooth, metal facades.
- **Reduced Maintenance**
Durable factory-applied finishes minimize long-term upkeep.
- **Faster Installation**
Lightweight panels and concealed fasteners keep projects moving.
- **Lasting Value Protection**
Backed by proven durability and a 30-year finish warranty.

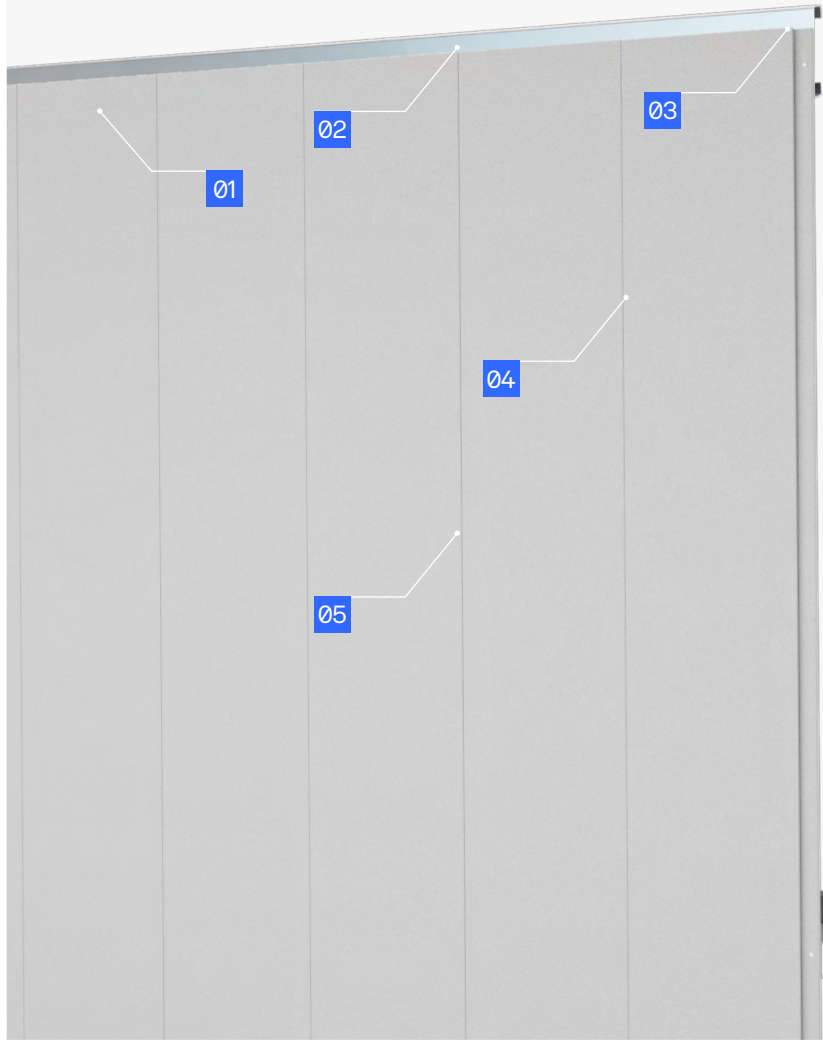

Let's build.
