

RPR™ Wall Panel

This system is built for builders who want strength they can count on and a wall system they can feel proud of. When a building needs to look sharp, perform for decades and stay low maintenance, RPR delivers confidence from the first panel to the final walkthrough. Clean architectural lines and durable finishes help create a finished look that owners trust and teams are proud to deliver.

With long continuous panels and an efficient installation process, RPR helps projects stay on schedule while supporting long-term performance. It's a wall system designed to reduce visual clutter, enhance durability and provide lasting value, giving builders and owners reassurance that the building will stand strong and look great for years to come.

Let's build. [VP.com](https://www.vp.com)

Key Benefits

- **Confidence in Durability**
Knowing the system is built to stand up over time.
- **Pride in Appearance**
Clean lines that elevate the finished building.
- **Comfort Through Efficiency**
Insulation flexibility that supports better performance.
- **Quicker Installs**
Long continuous panels keep endlaps and sealant joints to a minimum.

Product Features

- 01 **Lengths up to 48'**
continuous coverage from foundation to eave.
- 02 **Exposed fastener system**
in flute of the panel minimizes visual clutter.
- 03 **Deeper profile** accommodates up to 6 inches of fiberglass blanket insulation.
- 04 **Factory-applied KXL™ PVDF finishes** promotes long-term durability.

Specifications

RPR™ Wall Panel

Panel Type	Reversed-rolled version of Varco Pruden Panel Rib wall
Panel Profile	1 ³ / ₁₆ "
Panel Width	36"
Panel Gauges	22, 24 and 26-gauge steel
Fastener Type	Exposed, in flute of the panel
Finish Options	Factory-applied KXL™ PVDF finish
Insulation Options	Fiberglass blanket or rigid board Insulation
Testing	ASTM-tested performance, Florida and Miami-Dade approved assemblies
Warranty	25-year finish warranty
