

TextureClad™ Wall Panel

This system has the refined appearance of stucco without the weight, cost or long-term maintenance of traditional finishes. It's designed for times when architects face design codes restricting visible metal panels, offering a compliant solution that still delivers durability and efficiency. Its factory-applied textured coating creates a sophisticated façade while supporting faster installation with concealed fasteners.

More than an exterior finish, TextureClad is long-term durability. Galvanized steel strength, uniform factory quality and proven ASTM-tested performance help reduce cracking, fading and water intrusion concerns. This system gives owners confidence in lasting appearance and value.

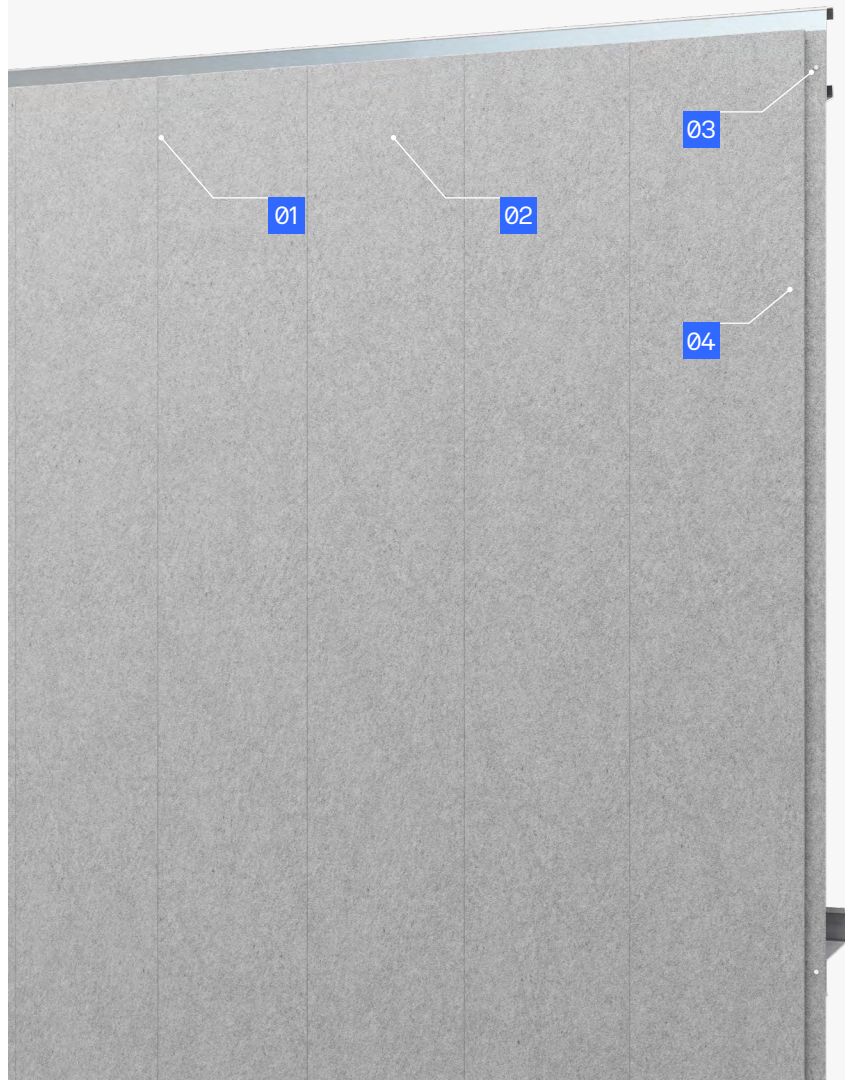

Let's build. VP.com

Key Benefits

- **High-End Stucco Aesthetic**
Delivers refined appearance without added weight or cost.
- **Efficient Installation**
Interlocking concealed-fastener design speeds construction.
- **Reduced Maintenance**
Fade-resistant textured coating minimizes long-term upkeep.
- **Energy Performance Support**
Improves insulation value when combined with hat channels.
- **Code-Compliant Versatility**
Meets ordinances restricting traditional metal panel use.

Product Features

- 01 **16" nominal width**, lengths from 14" to 30'.
- 02 **Tongue-and-groove interlocking design** delivers secure alignment.
- 03 **Concealed fasteners** for uninterrupted wall surface.
- 04 **Factory-applied textured stucco finish** formulated to resist water, cracking and mildew.

Specifications

TextureClad™ Wall Panel

Panel Type	Metal panel with factory-applied stucco finish
Panel Profile	5/8" fold back
Panel Width	16"
Panel Gauges	20-gauge steel
Fastener Type	Concealed
Finish Options	Factory-applied textured stucco finish with proprietary coating

Insulation Options

Testing	Tested and validated to ASTM standards including E283 (Air Infiltration), E331 (Water Penetration), E1592 (Structural), D2794 (Adhesion), and B-117 (Salt Spray)
Warranty	20-year finish warranty
